Amway Donates 1 Million Baht to Bamrasnaradura as Medical Equipment Support to Fight Against COVID-19

With the coronavirus disease 2019 (COVID-19) spreading rapidly, Amway (Thailand) Limited shares a concern that many public health institutions are running short of essential medical supplies and equipment such as medical masks, disinfectants, ventilators and personal protective equipment (PPE) for healthcare workers to cope with the situation. In contribution to this urgent need, Amway has donated 1 million baht to Bamrasnaradura Infectious Disease Institute to support timely procurement of the items needed for their care and treatment of COVID-19 patients. At the same time, the company would like to inspire all of Thailand to rise above this pandemic together.
