

### ***Accelerating Community Relief Efforts at TASA***

As local efforts to contain the COVID-19 outbreak intensify within Thailand, the effects of the necessary containment measures have begun to hit hard at segments of the population. In response, Triumph Aviation Services – Asia (TASA) has initiated a fast-track Community Outreach program aimed at less affluent and older people in the areas adjacent to its facilities in Amata Nakhon Industrial Estate.

The TASA Food Banks, supported by voluntary material and monetary donations from the TASA workforce, provides a wide variety of foodstuffs, water, vitamins and basic comfort items for neighborhoods which have limited freedom of movement under the COVID-19 restrictions.

With the initial distribution efforts commencing on April 10, TASA hopes to help offset the material shortfalls in an immediate and tangible way for our community neighbors – and to help remind them all of the hope that “This too, shall pass”.
